

EPISODE 20
Our World
Our Space Part 2

Ages 4-9:

ACTIVITY 1:

Space suits are important pieces of equipment that keep astronauts safe when they need to leave the ISS in addition to sending information about the astronauts to scientists on earth. The design of Astronaut suits has changed since we first went to space.

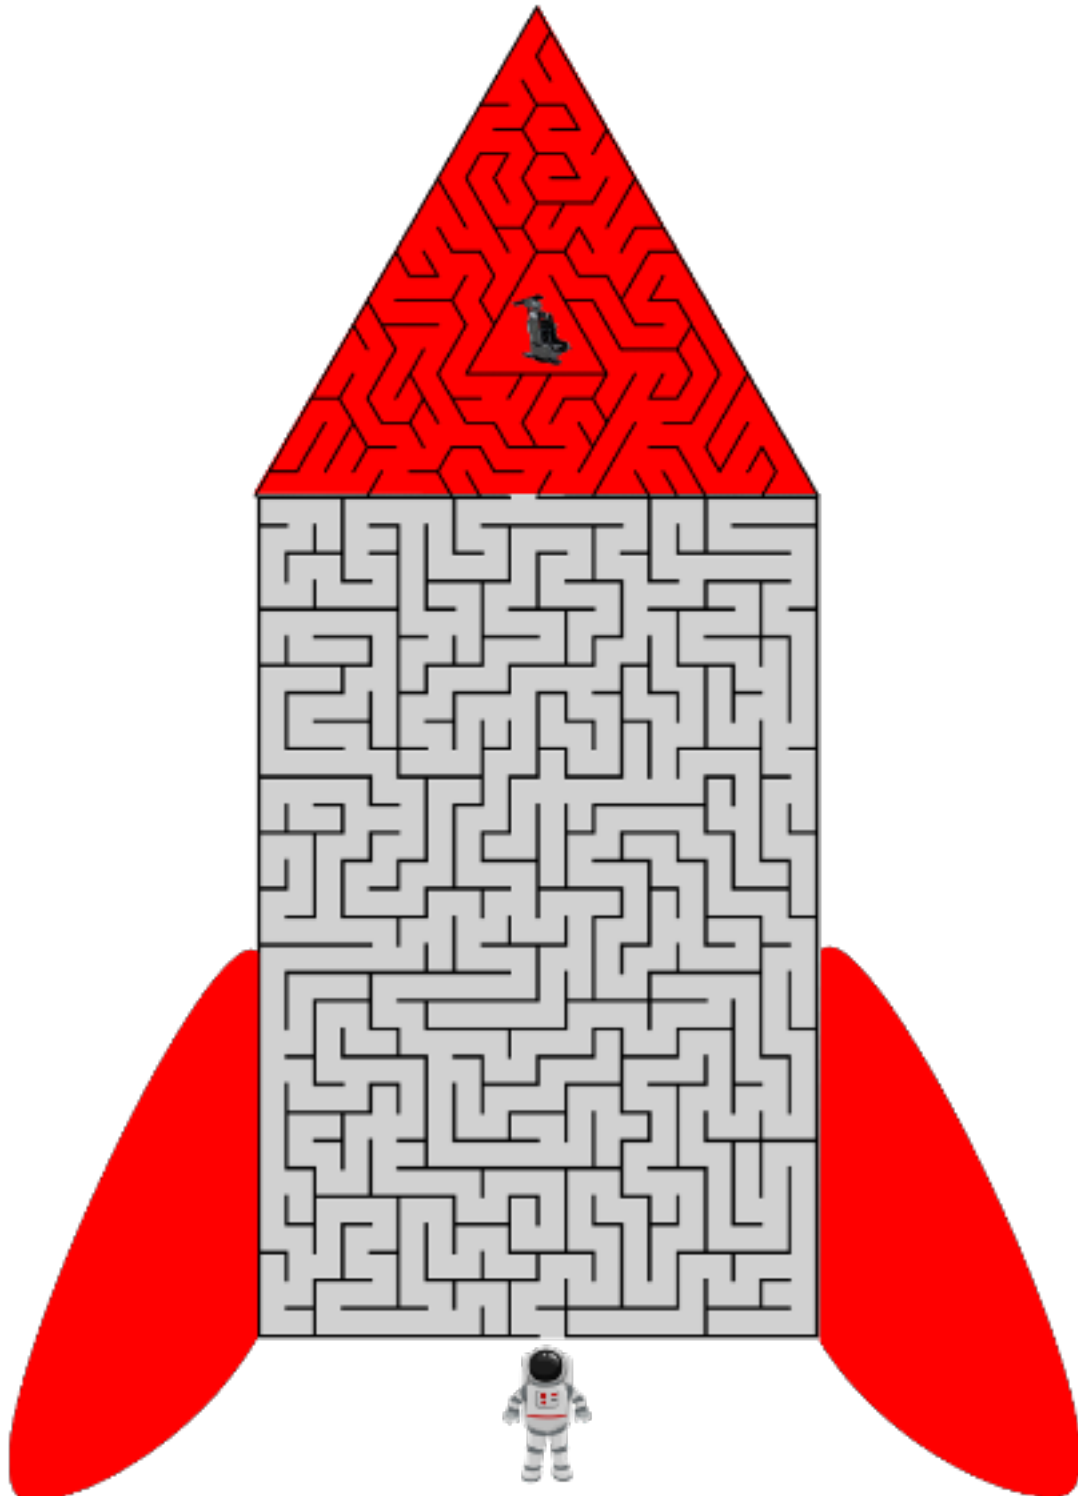

What do you think space suits would look like in the future? What would you want your space suit to look like? Draw your space suit the way you would want it to be, include all the details you want to make it your own!

Ages 4-9:

ACTIVITY 2:

It is almost time for lift off, help the astronaut get to his chair quickly before launch!

Ages 10-14:

ACTIVITY 1:

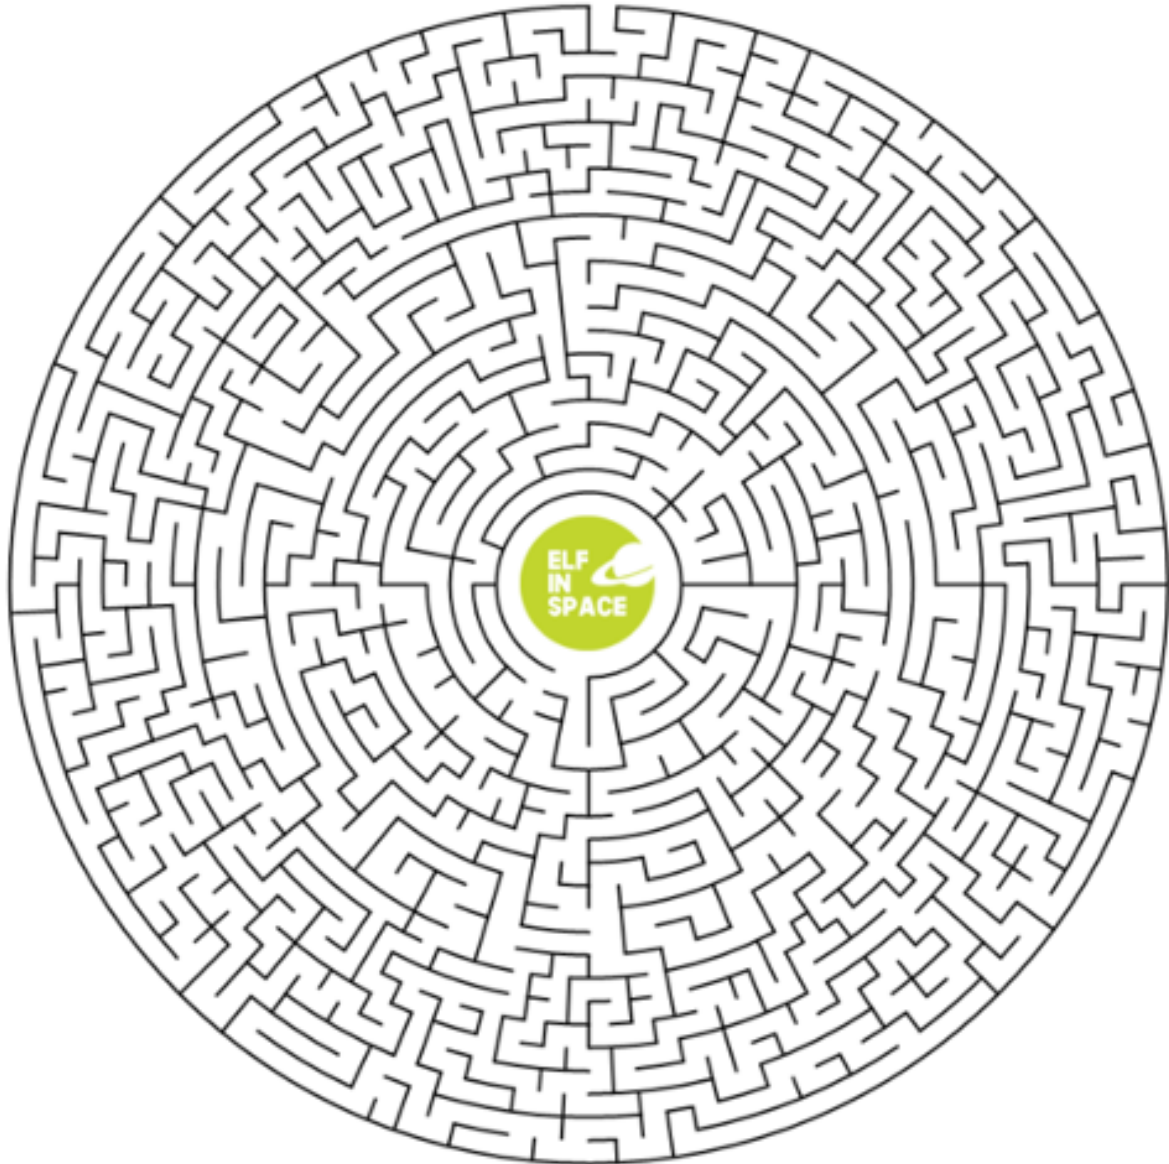

Since humanity managed to go into space, only a select few people have had the privilege of leaving earth. As scientists and engineers improve rockets and space technology, it will become easier and easier to go into space, it would hopefully reach the point where one day anyone could afford to go into space! Space holidays might one day become a thing!

When that day comes what would your space holiday look like? Will you stay on the moon and jump around? Would you float in orbit like the ISS? Maybe even on Mars? Tell us using words and pictures about your dream space holiday!

Ages 10-14:

ACTIVITY 2:

It has been a wonderful journey learning about space with all of you, but now it's time to share this knowledge with people all over the world. Help us connect the rest of Earth to ELF in Space!

Ages 15+:

ACTIVITY 1:

As space travel technology advances, it will become more accessible to people on earth. There might even come a day when planet of birth will be added to passports! The possibilities in the future are as wide as our imagination!

What developments do you see happening in the future of space travel and technology 20 years from now? what about 50 years from now? let your imagination run wild and take us along with your space journey! Tell us about what the future of humanity in space looks like to you! Feel free to use pictures and words to fully display your vision!
